Services

UVA Gallery strives to provide excellent and quick service to all our clients. Customer service is our main priority as well as the convenience to have all your art requirements in one place.

Packing and Delivery

Delivery

All our deliveries' pricing depends on the number of pieces, weight, height and distance. Please call for a quote.

Packing

Our team develops secure packing strategies for all types of objects. UVA has trained art handlers to pack collections using the highest-quality materials available and industry best practices.

CreatesTypes:

- Standard Creates
- Museum Createst

STANDARD CREATES

Our standard traveling museum case is built to the highest standard for domestic and international museums. These crates are formulated to be used indefinitely for artwork that will travel extensively. UVA offers a variety of options to tailor the crate to the specific needs of the artworks involved.

One Way

This type of crate is typically best for flatwork and small to medium sized objects. It is our most affordable fully featured crate, but one that is durable enough to last through multiple uses. This style of crate does not feature any exterior reinforcing or battening.

Two Way

This type of crate is a sturdier design then our One Way crate. This style of crate is completely battened on the exterior and provides superior strength and

durability. UVA builds its two-way crates to protect your art from any abuse it might face while in transit.

These crates are constructed for strength using 1/2 and 3/4 inch high quality plywood. A variety of interior foams are available, depending on the medium of the art. Both crate styles are appropriate for shipping via air freight or shuttle services. All crates are competitively priced and are designed to last for many years of travel.

MUSEUM CREATEST

The exterior of each museum case is waterproof and built to withstand the rigors of international travel. The interiors are designed to be an archival insulated environment to protect the objects from both fluctuations in temperature as well as any impact shocks that may be encountered during travel.

INSTALLATIONS

All Installations are white glove services. Our expert team of art handlers produce museum-quality results in both public and private settings. We can install everything from a single painting to a large traveling exhibition to a monumental sculpture using specialized rigging equipment.

PHOTOGRAPHY

UVA captures high-resolution images of art, fashion, design, cultural artifacts, and rare objects. We handle everything from preparation to post- production. Images can be easily incorporated into our client portal to help digitize collections.
